

MICROTRACK

The GPX MicroTrack is a small, discreet tracker that fits in the palm of your hand. This tracker utilizes the largest and most reliable 4G LTE cellular networks to maintain a stable connection to our servers from virtually anywhere in the United States. The MicroTrack supports real time tracking, with updates every 60 seconds when moving, providing the user with continuous location visibility. MicroTrack features a rechargeable battery, offering up to a week or more of battery life in between charges, depending on the frequency of location updates.

REPORTING MODES

every 60s when moving, every hour when stationary

Up to 2.5 weeks battery life

Every 5 minutes

Up to 1 week battery life

Every hour

Up to 2 months battery life

Every 6 hours

Up to 8 months battery life

Every 24 hours

Up to 18 months battery life

LTE SPECIFICATIONS

Cellular Technology

LTE Cat-M1/NB-IoT + 2G

Operating Bands

B1/B2/B3/B4/B5/B8/B12/B13/B14/B18/B19/B20/
B25/B26/B27/B28/B66/B71/B85

OTHER SPECIFICATIONS

Size

3.34in x 2in x .78in

Weight

99 grams

Operating Temperature

-4°F to 158°F

Battery

Rechargeable 2900mAh Polymer lithium battery

Operating Voltage

3.7V

Water/Dust resistance rating

IP67

Certifications

FCC

INTERFACES/ANTENNAS

LED Indicators

GPS(Green), PWR(Blue), CELL(Red)

USB-C Interface

Used for charging and debugging

Location Technology

GPS,WiFi,LBS
